Review Report

To the Board of Directors of Hero FinCorp Limited

1. We have reviewed the accompanying unaudited standalone financial results of Hero FinCorp Limited (the “Company” or the NBFC”) for the quarter ended June 30, 2022, which are included in the accompanying Statement of Unaudited Standalone Financial Results for the quarter ended June 30, 2022 (the “Statement”) being submitted by the Company pursuant to the requirements of Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the “Listing Regulations, 2015”), including relevant circulars issued by the SEBI from time to time. We have signed the Statement for identification purposes only.
2. The Statement is the responsibility of the Company’s Management and has been approved by the Company’s Board of Directors. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement has not been prepared in accordance with the applicable accounting standards and other recognised accounting practices and policies, and has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 52 of the Listing Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement, or that it has not been prepared in accordance with the relevant prudential norms issued by the Reserve Bank of India (RBI) in respect of Income recognition, asset classification, provisioning and other related matters, to the extent those are not inconsistent with the Indian Accounting Standards prescribed under Section 133 of the Companies Act, 2013.
5. We draw your attention to Note 9 of the Statement of the Company regarding the accounting treatment of compulsorily convertible preference shares (“CCPS”/ “instruments”) aggregating to Rs. 2,000 crores, measurement and classification of the same in accordance with the provisions of section 43 and section 52 of the Companies Act, 2013 instead of Ind AS 32 and 109. Our conclusion is not modified in respect of this matter.

- 4) The secured non-convertible debentures issued by the Company are fully secured by pari-passu charge on loan receivables of the Company, to the extent as stated in the respective information memorandum. Further, the Company has maintained 100% asset cover or higher as stated in the information memorandum which is sufficient to discharge the principal amount at all times for the secured non-convertible debt securities issued.
- 5) Information as required by Regulation 52(4) of the Securities and Exchange Board of India (Listing Obligations and Disclosures requirements) Regulations, 2015 is attached as Annexure 1.
- 6) Pursuant to SEBI Circular No. SEBI/HO/DDHS/DDHS/CIR/P/2019/115 dated October 22, 2019, the Company has listed Commercial Papers on National Stock Exchange (NSE).
- 7) Earning per equity share for the quarter ended June 30, 2022, March 31, 2022 and June 30, 2021 have not been annualised.
- 8) The Company has implemented the requirements pertaining to day-end-processing and allied matters vide RBI circular dated November 12, 2021. The Company did not opt for the relaxation offered to it in RBI circular/clarifications dated February 15, 2022 in relation to upgradation of non performing assets.
- 9) During the quarter, the Company has allotted 3,63,63,636 Compulsorily Convertible Preference Shares (CCPS) (comprising of 1,70,36,363 Class A CCPS and 1,93,27,273 Class B CCPS) of face value of ₹ 550 each aggregating to ₹ 2,000 crores. As per Ind AS 32 'Financial Instruments: Presentation' such securities are required to be classified as a financial liability and measured at fair value. However, there remains certain contradictions between the Ind As and the Companies Act, 2013 with regards to classification and measurement of such securities. Classification and measurement of the securities as a financial liability, in accordance with the principles of Ind AS 32 and Ind AS 109 'Financial Instruments' would not be in accordance with the provisions of Companies Act, 2013, which requires share capital received to be classified under share capital. Considering that the rule of construction states that the Act would prevail over any subordinate legislations like Companies (Indian Accounting Standards) Rules, 2015, the Company has classified the said securities i.e. CCPS under equity in accordance with Companies Act, 2013.

If the CCPS were classified and measured as per Ind AS 32 and Ind AS 109, profit before tax would be lower by ₹ 13.15 crores for the period.
- 10) Disclosure pursuant to RBI Master Directions - Reserve Bank of India (Transfer of Loan Exposures) Directions 2021 RBI/DOR/2021-22/86 DOR.STR.REC.51/21.04.048/2021-22 dated September 24, 2021:

The Company has neither transferred nor acquired any stressed loans or loans not in default during the quarter ended June 30, 2022.
- 11) The Company is engaged primarily in the business of financing, and accordingly, there are no separate reportable segments as per Ind AS 108 dealing with Operating Segment. The Company operates in a single geographical segment i.e. domestic.
- 12) The figures for the quarter ended March 31, 2022 are the balancing figures between audited figures in respect of full financial year ended March 31, 2022 and year to date figures upto the end of the third quarter of the said financial year. The figures for the quarter ended June 30, 2021 were neither subjected to review nor audit.
- 13) Previous period/ year figures have been regrouped/ reclassified, wherever found necessary, to conform to current period/ year classification.

3. Others

a. Lending policy: Should contain overview of origination, risk management, monitoring and collections

The various divisions of the Company formulates and revises internal policies and procedures for their respective lending activities. The Company's credit approval process involves multiple levels of loan approval authority, depending on the loan amount and other factors such as the nature of the credit and

the conditions of the transaction. The Company follows stringent credit policies to ensure the asset quality of the Company's loans and the security provided for such loans.

The Company's credit policies include the following:

Two-wheeler loans

The borrower firstly fills out an application form with the Company's sales staff with know your customer details (the "KYC details"). This information is used to run a de-duplication check on the borrower. If the check is successful, the Company then records the details of the loan sought (including the borrower's income and vehicle model) in the sales memo, after which the borrower undergoes identity/address, credit and fraud checks verified through the relevant Government databases.

The borrower is then subject to a scorecard and credit underwriting process where they are scored based on its loan proposal. The Company's central credit team then approves (with conditions, if applicable) or rejects the loan. Once the loan is approved, all loan documents provided are verified for compliance, a disbursement request form is raised and the loan agreement with the borrower is then executed. The Company's sales staff then, on a case by case basis, collects from the borrower the National Automated Clearing House ("NACH") mandate form and the post-dated cheques for two instalments due on the loan which are used if there is a delay in activating the NACH mandate.

Finally, the Company's disbursement team generates the payment instrument (net of one equated monthly instalment and file charges) in favour of the dealer, which is then authorized by the Company's authorized personnel and forwarded to the dealer's relevant bank for clearance. Post-disbursement, the vehicle is registered in the name of the borrower and the hypothecation in favour of the Company is noted on the registration certified book.

Pre-owned cars

The Company's sales staff firstly inputs the borrower's KYC details and runs a de-duplication check based on those details. Once the check is complete, the Company then records the details of the loan sought (including the vehicle model, vehicle vintage, the borrower's income) and the borrower undergoes credit and fraud checks verified through the relevant Government databases.

The Company then assigns staff to carry out field investigations which include visits to the borrower's household and workplace. The field investigation staff then completes and submits a report for review by the dealer branch manager. An external agency will also perform a valuation of the vehicle which forms the basis for determining the loan amount, while obtaining a photograph of the vehicle and the borrower. The Company's operations team then re-verifies all mandatory loan documents provided to ensure compliance. Subsequently, the Company's fraud control unit ("FCU") completes a further verification process on the borrower's credit reports, the borrower's income, the field investigations report and the valuation report. The Company's credit team and FCU will seek clarification from the branch manager if any discrepancies are identified. The Company's credit team then approves (with conditions, if applicable) or rejects the loan in the Company's system with the FCU providing the final approval.

Once approved, the Company's disbursement team prepares the payment instrument (net of one equated monthly instalment and file charges) in favour of the relevant lending institution / borrower (refinance loans) or seller (used vehicle loans). The instrument is then signed by the Company's head of operations and the amount is credited to the borrowers account electronic funds transfer, with an identification number generated once the loan is disbursed.

Inventory Funding

Upon receiving a funding request, the zonal and cluster managers will visit the dealer and collect documents such as financial and bank statements, tax, sales and GST returns and open credit lines to assess the dealer's credit strength and forward the request to the relevant corporate team. The corporate team will prepare a CAM to be approved by the regional credit manager / zonal credit manager / credit.

The retail operations team will then prepare the pre-disbursement documentation to verify the facility document signed by the borrowing dealer. Once this is verified, the dealer will be assigned a limit and a tranche will be disbursed to Hero MotoCorp. Additional tranches can be subsequently disbursed on indents received by the dealer – fresh tranches cannot be disbursed until an overdue (if any) is regularized. If the Company has sanctioned any retail loans, these would be adjusted against the drawdown amount on the facility.

Interest on the loan is calculated on a daily reducing balance and applied to the complete tranche and no new tranche will be disbursed if interest is overdue. The facility's limit is appraised on an annual basis. If there is a revision of the dealer's limit post-verification of all relevant post-sanction documents, a tranche would be disbursed to Hero MotoCorp.

A stock audit will also be carried out on a case by case basis at the discretion of the inventory funding credit team.

SME and LAP

SME and LAP loans are originated through either the direct sales team, customer references or DSAs (for LAP). A loan application (including supporting documentation relevant to the borrower's industry profile and loan product, such as the KYC details, property documents, financial and bank statements, tax returns, details on the borrower's relevant debt or co-borrower (if any)) is collected and verified by the Company's sales staff. These are then forwarded to and cross-verified by the Company's Credit Processing Assistant ("CPA").

The loan application is then subject to a credit appraisal process where the following checks are performed: du-duplication check, desktop check based on publicly available information as well as tele/contact point verification, physical visits to the property that would be mortgaged by the borrower, verification of financial statements / the borrower's income for authenticity and consistency, compliance with the Company's credit policy and fraud checks.

Once complete, the loan applications will be subject to a further credit evaluation process. For LAP, the credit manager will prepare a credit appraisal memorandum ("CAM") which records details of the loan such as its nature, end use, amount, tenure and compliance. For SME, the credit manager prepares a CAM which records the details on the machinery loan (including its nature, end use, amount and compliance), factors relevant to bill discounting (including profile of the borrower's customer, authenticity of the bill discounted and other relevant details such as 12-month cash flows, tenure, the borrower's industry and coverage of the borrower by a branch. For both LAP and SME, future projections for the credit evaluation is performed based on historical financial statements, with key financial ratios being re-computed. If historical financial statements are not available, the borrower's income will be assessed using a multiplier grid of existing loan obligations.

Following credit evaluation, depending on its individual geography, the property under the loan applications will undergo technical valuation by external local / national agencies. A valuation from two independent third-party agencies will be obtained. Valuation is determined through various factors including location, end use restrictions, sanctioned plan and if it is a developer property, its floor area ratio and if it is a construction property, its construction progress.

Legal verification of the property's title and enforceability is carried out by an empaneled legal agency based on the property type. The legal agency will then prepare a legal report specifying documents required at the time of loan disbursement in order to enforce the security. Once this step is completed, the loan application undergoes a holistic appraisal from all of the Company's relevant departments (legal, technical, field investigative team, fraud control) and received a final approval. A sanction letter is then generated, constituting the agreed terms of the loan with the borrower.

Subject to the Company's receipt of original documents relevant to the loan application, the loan is then disbursed to the borrower. Post-disbursement, in the case of machinery loan, the Company also continues to monitor the borrower by deploying the credit manager to visit the borrower's business premises to verify the machinery and ensure appropriate insurance cover has been obtained. For all other loans in this category, the credit manager will verify the borrower's business performance at half yearly or yearly intervals.

Emerging Corporate Loans

The Company also provides emerging corporate loans. These are large ticket loans (greater than Rs. 200 million) targeted at medium- to large-sized corporates and promoter entities of reputed promoter groups. These loans are sourced directly through dedicated sales and relationship teams of the Company. The relevant relationship manager will firstly prepare a brief synopsis of the borrower (a "RM Note") setting out the transaction structure and details regarding the borrower, its promoter group, the relevant security, the indicative pricing and key financials. The RM Note is then reviewed by the national managers and team leaders of the Company's relevant credit, sales and business teams for a preliminary assessment and clearance of the borrower and the deal. This review will determine whether the prospective borrower's request is progressed or rejected. This is to ensure the Company maintains a high quality secured credit portfolio that is diversified in terms of borrowers, industries and products while sustaining an acceptable risk-adjusted yield.

Once the borrower's request is progressed, a loan application with the appropriate KYC details and supporting documents is collected and analyzed by the relationship manager or credit analyst. The loan application is subject to a credit appraisal process where de-duplication checks, verification checks, fraud checks and field visits to the relevant property to be mortgaged are done. The relationship manager (together with the credit analyst) then prepares a CAM setting out details of the loan such as its nature, tenure, end use, security structure, historical and projected financials, working capital requirements and other compliance details. The CAM also includes a detailed risk profile of the industry the borrower operates in and an in-depth analysis of the borrower's business, financial and management profile. This is to allow for an objective assessment of the borrower's ability to repay the loan.

If the borrower's security structure involves a mortgage over property, a technical valuation by an external agency will also be initiated. Legal verification of the property's title and its enforceability is then carried out by an empaneled legal agency and a legal report specifying documents required for the enforcement of the security (upon disbursement of the loan) is prepared.

The CAM is then submitted for the credit manager's review and input, which is subsequently forwarded on to the relevant national managers and team leaders of the Company's credit and sales teams. The final CAM is also submitted to the Company's credit committee for review and a decision-making process involving deliberations together with the credit and sales teams will take place.

Once the loan application is approved by the Company's credit committee and subject to the receipt of original documents relevant to the loan application and execution of the relevant loan and security documents, the loan is then disbursed. Post-disbursal, the Company's operations team will monitor the relevant post-disbursal documents which are collected by the relationship manager and submitted to the operations team for file completion. The Company's credit team also monitors the borrower through its financial covenants and review of the borrower's quarterly or half-yearly financials.

Risk Management

Hero FinCorp promotes a strong risk culture throughout the organization designed to help reinforce Hero FinCorp's resilience by encouraging a holistic approach to manage risk & return and provide Management with a greater insight into risks and their impact. Hero FinCorp operates with an effective Risk Management Framework to actively manage all the material risks faced, in a manner consistent with our risk appetite. Financial services industry in India and across the globe witnessed unprecedented financial crisis during FY-21 owing to COVID-19 pandemic. It reemphasized the importance of robust risk management practices amongst Banks & NBFCs. While the Senior Management team at Hero FinCorp ably managed the Risk Management function in the organization so far, the Risk Management Department (RMD) was formally set-up in the organization in the beginning of FY 21 with the on-boarding of the Chief Risk Officer, Ms. Srishti Sethi. The RMD has been created and placed in the organization structure on the 'Three lines of Defence' model. The model distinguishes amongst the three groups (or lines) involved in effective risk management:

- Functions that own and manage risks (frontline teams/ operational managers who own and manage risks and are responsible for implementing corrective actions to address process and control deficiencies)
- Functions that oversee risks (RMD & Compliance)

- Functions that provide independent assurance (Internal Audit)

Risk Management team at Hero FinCorp identifies, measures and mitigate risks faced by the Company. We have a differentiated approach to managing risks across our platforms with robust governance mechanisms in place, that not only manage risks at each of the segment levels but also at the Company level.

Risk Management team is guided by the Company's Risk Management Committee which oversees development and implementation of Risk Assurance practices. Under the overall ambit of Corporate Governance, the Company has in place a Risk Management policy along with other risk related policies.

Our approach to risk management assists us in identifying risks early and addressing them in ways that manage uncertainties, minimize potential hazards, and maximize opportunities for the good of all our stakeholders including shareholders, customers, lenders, regulators and employees.

Hero FinCorp has to manage various risks associated with the lending business. These risks include credit risk, operational risk, liquidity risk and interest rate risk amongst others. Hero FinCorp Limited manages credit risk through stringent credit norms. Company measures, Classification of loans/advances given to associates, entities/person relating to the board, senior management, promoters, others, etc.: As is being disclosed currently monitors and manages credit risk at an individual borrower level and at the group exposure level for corporate borrowers. The credit risk for individual borrowers is being managed at portfolio level for Loans. Company has a structured and standardized credit approval process, which includes a well-established procedure of comprehensive credit appraisal. Operational Risk comprises of risk of loss due to losses arising from failure of internal systems, process and personnel or external events. Hero FinCorp has identified various risks under this category and has put in place appropriate controls and disaster recovery plans to mitigate or minimize the risk. In order to mitigate the interest rate risk and liquidity risk, we have developed innovative resource mobilization techniques and prudent fund management practices, among others. COVID19 brought in its wake an environment of not only heightened risk, but of prolonged uncertainty. The still -unfolding crisis has blurred the lines between business-as-usual risk management, crisis management and resilience. The response to COVID19 by the Government and the Regulator was a multitude of measures that were a 'first' for the industry— Loan Moratorium, Ex-Gratia Payment, One-Time-Restructuring, Atmanirbhar Bharat Loans, etc. Hero Fincorp has been very agile in terms of response to COVID-19 and took proactive steps to combat portfolio stress e.g. Risk Appetite Framework, Reserve Adequacy Assessment, Portfolio Stress Testing, Credit Policy changes, Moratorium extension to impacted borrowers, Emergency Credit Line Guarantee Scheme (ECLGS) lending, One-time Restructuring of Loans & Advances, Risk conscious approach on incremental lending. Risk Management Department at Hero Fincorp has been performing the dual tasks of setting up the basic Risk Management process of identifying, measuring, monitoring and reporting risks in the Company; and, at the same time, upgrading and repositioning risk management – basically, a 'Risk Reboot' – as the pandemic unfolded.
